STRETCHER FERNO 71

EHBO

Max load: 272 kg

Resistant to extreme temperatures.

Equipped with 4 patient straps, footboard and connection for lifting spider.

DESCRIPTION

Basket stretcher of the brand Ferno. This can be used for both horizontal and vertical lifting, where the stretcher is held horizontally. It is ideal for rescue operations in mines, at height and in water.

The cover is made of polyethylene and is connected to an aluminium frame for reinforcement. This makes it easy to maintain. The handles for transport, which are part of the structure itself, are positioned along its entire circumference. Inside the stretcher there is a removable closed-cell foam mattress.
