

ref. 99072057

FIRE EXTINGUISHER LITHIMAX 3L

BLUSAPPARATEN

Extinguisher for lithium-ion batteries

Fires: 27A

Extinguishing distance: 4-6 metres

DESCRIPTION

The Lithimax extinguishers are cartridge extinguishers with an internal propellant bottle. The activation of the extinguishers is done by pressing the impact head. By means of the hose and spray head, the spray jet can be targeted and dosed at the source of the fire. The extinguishing agent consists of water and the additive F-500 Encapsulator Agent. This additive distinguishes itself by its highly effective extinguishing properties:

- Reduction of surface tension
- Increased surface coverage
- Faster heat reduction
- Encapsulation of fuels and flammable gases

The extinguishing agent additive F-500 is excellently suited for fires of plastics, plastics, rubber and batteries (more specifically lithium-ion batteries).

Application: Burning of plastics, rubber, wood and batteries (more specifically lithium-ion batteries).

TECHNICAL SPECIFICATIONS

- Capacity: 3 litres
- Fireplaces: 27A
- Extinguishing distance: 4-6 metres
- Extinguishing agent: water with 2% F-500 Encapsulator Agent SP 83/08
- Temperature range: 5°C to 60°C
- Biodegradability: 100%
- Standardisation: BENOR AND 3 / CE
