Removable spreading points

DESCRIPTION

To spread, cut, pinch and pull with one tool. Part of the 5000 series: without sacrificing performance, the lowest weight in its class.

TECHNICAL SPECIFICATIONS

- Operating handle with improved grip
- I-Bolt Technology: Flatter design for better access to confined spaces
- Integrated LED lighting in carrying handle (6 LEDs)
- 360° access to operating handle
- Gripping teeth on both blades, for extra grip when cutting and to prevent wider materials from being pushed out of the blades
- Removable spreading points: To make a complete cut without compressing materials between the points. Quick removal possible with one hand, even when wearing gloves.
